

steel cored nylon roundbar lever furniture

The lever style shown in this section is available on the following rose and plate fixing options

Please suffix lever code with plate option no., followed by profile digit and colour abbreviation

(eg. 419 lever - on concealed radiussed plate (4) - euro profile (P) - silver grey (SGR) would be: 419/4PSGR)

on rose (0)

concealed rose

plate 2

face fixed square

plate 3

face fixed oblong

plate 4

concealed radiussed

Piercings on all variants of backplates featured within this section are supplied at standard UK centres and are as follows:

Europrofile lock plates (P) are 47.5mm from the centre of the spindle follower and the centre of the cylinder and Oval profile (U) are 48.5mm

Lock (L) and Bathroom (B) backplates are 57mm centres between the centre of the spindle follower and the middle of the keyway/bathroom turn

However, backplates with centres that differ from those detailed above can be produced upon special request.

signage

DDA states that signs are to be produced in highly contrasting colours (between the letters/symbol and the background). The reason being that whilst only a small percentage of the population are blind, a much greater percentage of people are partially sighted - especially amongst the elderly. Please refer also to the Signage section of this catalogue for braille and emergency exit signs.
