

## designer lever furniture

All of our designer lever styles are available in either Satin (SSS) or Polished (PSS) Stainless Steel finishes, with some styles available in a Dual (DUO) finish.

Lever handles with 5mm roses are unsprung. Those with 8mm or 10mm roses are sprung. Some handles illustrated as unsprung may be available sprung upon special request. Similarly, some handles illustrated as sprung may also be available unsprung upon special request.

Some lever styles may vary slightly to those pictured and The Company reserves the right to change or modify product(s) without prior notice.

### \*unique privacy function

available on all levers featured in this section that are marked with '\*'  
prices upon application

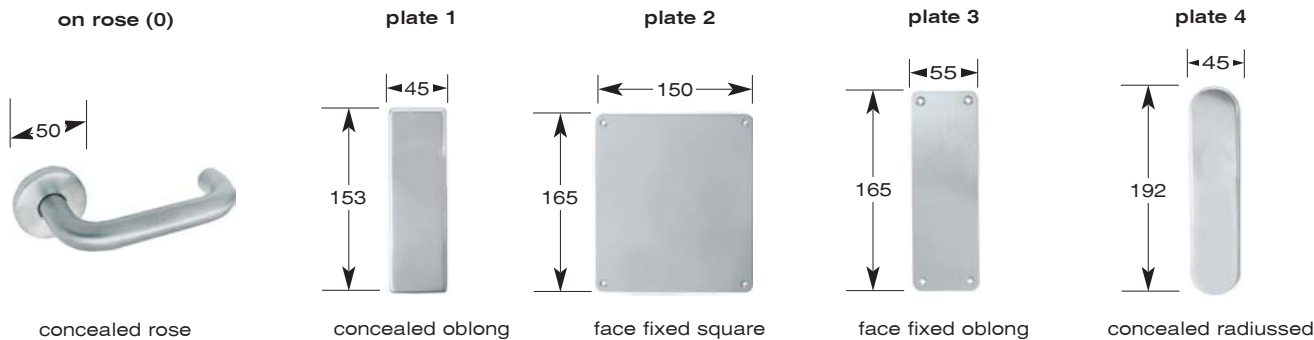

This unique feature allows a privacy feature to be achieved on a bathroom or internal door when used with the round bodied latch, detailed here. Simply pressing the snib, located on the rose of the selected lever handle, deadlocks the latch and disables the outside lever. Pulling out the snib will release the feature. Emergency access is available from the outside at all times. Latches are also available square for replacement of existing tubular latches.

## roundbar lever furniture

All of our roundbar lever styles are available in either Satin (SSS) or Polished (PSS) Stainless Steel finish.

The various lever styles shown within this section are available on the following rose and plate fixing options.

Please suffix lever code with plate option no., followed by profile digit. (eg. 229 lever - on concealed oblong plate (1) - bathroom furniture (B) is 229/1B)

Piercings on all variants of backplates featured within this section are supplied at standard UK centres and are as follows:

Europrofile lock plates (P) are 47.5mm from the centre of the spindle follower and the centre of the cylinder and Oval profile (U) are 48.5mm

Lock (L) and Bathroom (B) backplates are 57mm centres between the centre of the spindle follower and the middle of the keyway/bathroom turn

However, backplates with centres that differ from those detailed above can be produced upon special request.
